UNDERSTANDING LAMBPLAN ASBVS

An **ASBV** is an estimate of the genetic potential a sheep will pass on to its progeny. ASBVs are available for a range of economically important traits and are designed to be used in conjunction with visual selection. The appearance and performance of an animal is a combination of its genes and the environment in which it is raised. ASBVs account for these environmental effects, allowing the comparison of sheep based on the genes they will pass on to their progeny. It is important to remember when selecting sheep you are choosing the genes, not the environment.

BWT	BIRTH WEIGHT (KG) Estimates the genetic difference between animals in live weight at birth.
WWT	WEANING WEIGHT (KG) Estimates the genetic difference between animals in live weight at a given age.
PWT	POST WEANING WEIGHT (KG) Estimates the genetic difference between animals in live weight at a given age.
PFAT	POST WEANING FAT DEPTH (MM) Estimates the genetic difference between animals in GR fat depth.
PEMD	POST WEANING EYE MUSCLE DEPTH Estimates the genetic difference between animals in eye muscle depth at the C site.
IMF	INTRAMUSCULAR FAT (%) Measure of the chemical fat percentage in the loin muscle of a lamb and is often referred to as marbling. IMF has been shown to have a significant impact on the flavour, juiciness, tenderness and overall likability of lamb.
SHRF5	SHEAR FORCE (KG) Shear Force is a measure of the force or energy required to cut through the loin muscle of lamb after 5 days of ageing, the ASBV is reported in deviations of kilograms of force.
TCP	TERMINAL CARCASS PRODUCTION INDEX Focuses on increasing weight and muscle while reducing carcass fat, which contribute to higher lean meat yield. TCP also has emphasis on modest improvements in eating quality.
EQ	EATING QUALITY INDEX This production system is for a prime lamb operation where terminal sires are joined to ewes of a Merino/maternal breed or cross, and where producers are interested in improving the eating quality of their lambs to a greater degree than is possible with the TCP index.

BUYERS INSTRUCTION SLIP

To be filled in and handed to Auctioneers before leaving the sale.

Buyer Number :

Trading Name :

Buyer Name :

Postal Address :

Mobile :

Email :

Lots Purchased :

Delivery Instructions : ☐ Taken Today

☐ Leave Here (details)

BUYERS PLEASE NOTE

Stud stock as catalogued will be placed on trucks on receipt of written instructions from clients who are requested to hand these instructions to the office as soon as possible to enable the earliest transport possible.

Verbal instructions will not be acted upon.

INSURANCE DISCLAIMER

Insurance risk of stud animals sold at auction transfers to the purchaser at the fall of the hammer including animals remaining on the vendor's property. Purchasers are advised to insure their animals at the completion of the sale by contacting their own insurer direct.

Please note with Stud Stock Insurance there is **NO** automatic Insurance cover.
